Naila Zaafira Wilson
University of Washington, USA
Assalamu’alaikum Warahmatullahi wabarakatuh.

Thank you to the presence of God Almighty who has bestowed us brilliant ideas and is able to present them in the third Newsletter of the Kharisma Bangsa School School of Global Education. This letter is created in order to share information about school activities that have been going well. Hopefully this information is useful both for students, teachers, parents, and other stakeholders.

As a form of dedication to the development and progress of education, especially in Indonesia, we are aware that we must continue to improve ourselves by presenting learning programs and activities that can develop the potential of Kharisma Bangsa students, both in academic and non-academic fields, such as student council activities, SMABA/Kharisma Bangsa School Basketball Club, The Department of National Science Olympiad and other Extracurricular Clubs are gathered in this journal. Of course we are all very proud of the programs that have been achieved so far and the programs that have been maximized but have not met the target. The effort of Kharisma Bangsa School has to make more achievements in the future will not stop as long as opportunities and challenges unfold.

As a hope, hopefully with the emergence of innovative programs that bring out creative and superior students can inspire our students and others to advance and work for our nation. We from the board of the Kharisma Bangsa School would like to thank many students, coaches, teachers and staff who have worked hard and parents of students who always support both morally and materially.

Lastly, the success that has been achieved to this day does not mean the final target, but it is the beginning of a struggle. May the success achieved by the Kharisma Bangsa School benefit many people and blessings for the world of education.

Best Regards,

Sandra Susanto, M.Pd. I.
Middle School Principal of Kharisma Bangsa
The 13th KBDAY, which is the anniversary of Kharisma Bangsa School was held back on April 6th and was in collaboration with GLARISA CUP 2019 closing ceremony. The event was filled with performances from Elementary, Junior, Senior High and even alumni.

GLARISA CUP is an annual external event held by students of Kharisma Bangsa. This year’s GLARISA CUP was held from March 16th to April 6th on weekends. The event provided 7 competitions from academics and sports to creativity. The students participated in the following competitions: football, basketball 3x3, basketball 5x5, ratoh jaroe traditional dance, English speech, English debate and last but not least, mural painting. The event successfully hosted over 600 participants around Jabodetabek.
RMM (Romanian Master of Mathematics), one of the most prestigious Math Competition in International Level. This year it was held from February 20th-26th, 2019 in Bucharest, Romania. Farrel Dwireswara and Alfian Edgar were chosen as representatives of Indonesia among other 6 representatives from other schools. Alfian got Bronze medal, and Farrel got Honorable Mention Award in this competition.

Congratulations to our students represented Kharisma Bangsa Elementary school to join the International Math Challenge VIII (IMC VIII), March 9th-11th, 2019 at Rangsit University Bangkok.

**International Math Challenge (IMC) 2019**

- Team 1: Altamiz, Nadyn and Rafi won the 2nd place. (Silver medalists)
- Individual Category 1:
  - Isbilya Natifia Erindra (Silver Medalist)
  - Altamiz Muhammad Marsudi (Silver Medalist)
  - Muhammad Rafi Qsan B (Bronze Medalist)
  - Nadyn Ufairah (Bronze Medalist)
  - Saisha Sakina Arudyia (Honorable Participant)
  - Alif Syauqi Bagaskara (Honorable Participant)

800 participants of 53 schools from 22 countries participated in Math Challenge and Robotic Challenge.

---

**Romanian Master of Mathematics (RMM)**

Anastasya Azzahra & Tiara Salsabila
Bronze Medals (Social Science Project)

Shanika Chandani J. & Titi Ulaya
Honourable Mentions (Physics Project)
Hanoi Open Mathematics Competition (HOMC) was held from April 2nd-6th, 2019 in Hanoi, Vietnam. Farrel got Gold Medal and Luthfi got Silver Medal.

TZORFAS is a Science and Math competition held by Insan Cendekia Madani School from April 6th-14th, 2019. For Science Branch, our students got 1st place and 2nd place: Annabelle Qetsyah, Kalila Putri and Jasmine Lianna (1st Place) and Andias Alfitra, Danish Muhammad, M. Azraf Repol (2nd place). For Math Branch, we got 2nd place: Nabila Paramitha, Nabila Aurelia and Fawzia Kamila.
The students from grade 10, Anastasya Azzahra and Tiara Salsabila, successfully achieved the third place in YNSF 2019 (Youth National Science Fair) that was held in Bandung, May 10th - 12th, 2019. They were automatically chosen as one of the national teams that will compete in the International event “World Invention Creativity Olympic (WICO) 2019” in Korea.

The Youth National Science Fair (YNSF) is a competition for young researchers of 13-20 year-olds to present the results of their research. Through the Youth National Science Fair, young researchers have the opportunity to present their work, enrich their insights, improve communication skills, establish new friendships and have the opportunity to compete at the world level because the YNSF champions will automatically represent Indonesia in the international competition.

Science Quiz and Competition (SQUC) in SMANU MH. Thamrin was held on February 10th, 2019:
- Sulaiman Syarif and Andias (1st place)
- M. Nabil and Jasmine Athirah (2nd place)

SEAMO refers to Southeast Asian Mathematical Olympiad. Three of our students got medals in this competition. Ahmad Fikri Azhari got Gold Medal, Farhan Fauzi Hasbi got Silver Medal and Teuku Arkamsyah Ali got Bronze Medal.
Hong Kong International Mathematical Olympiad (HKIMO) provides a fair platform to ALL mathematics lovers. The award criteria for HKIMO is based on the individual performance of each student, unlike general Mathematical Olympiads which fix the percentage cutoff of the top candidates’ scores. The covered area includes Logical Thinking, Arithmetic or Algebra, Number Theory, Geometry and Combinatorics. This competition is open to all students from kindergarten to senior high school. Hong Kong International Mathematical Olympiad (HKIMO) heat round was held in Kharisma Bangsa School on Saturday, May 4th, 2019. There were 139 Participants in this competition. The participants came from Kharisma Bangsa School, National High Jakarta School, Nanyang International School, Harapan Bangsa School, Binus School and other private and public schools around Tangerang, Jakarta and Bandung. Students who received Gold, Silver and Bronze medals in the Heat Round will be moving to the Final Round in Hong Kong which will be held from August 30th-September 2nd, 2019.

Olimpiade Olahraga Siswa Nasional (O2SN) 2019

Ermine Najma Ramadhani won 3rd place in Olimpiade Olahraga Siswa Nasional (O2SN) held in Tangerang Selatan, March 20th-21st, 2019.

Biological OPUS FAIR 2019

Biological OPUS FAIR 2019, held by ITS, Surabaya on February 11th, 2019. Our Student, Abdullah Yahya, got 3rd place in this competition.

Math & English Competition (CREMC)

CREMC is a Science, Math and English Competition held by Cahaya Rancamaya school in Bogor. This year it was held on February 13th, 2019. M. Nabil, Luthfi, and Azraf won 1st place and Annabele, Kalila and Nabila Paramitha won 3rd place.

-- Drawing --
Grade C (13 to 16 yo).
Wishing you with a shower of joys and blessings in the holy month of Ramadan.

Kharisma Bangsa Family

Alhamdulillah we have done our 1st programs in this holy month which is distributing around 2000 iftar packages to the local people from May 8th-10th & 13th-17th. Our students distributed iftar packages in different location such as the front of Kharisma Bangsa School, Gaplek (near McDonald), Local Mosque and UIN Syarif Hidayatullah. We would like to thank all of the donators (parents, teachers, students and others) for contributing in this program. May Allah bless you and your family by plenitude of blessings, ameen!
Be an entrepreneur

Starting her own business can give your middle grader work experience and something fun to do this summer. Share these suggestions.

- **Event assistant.** Your sweet might help local parents with celebrations like birthday parties or family reunions. She could put together party favors, set tables, take photos, or do face painting, for example.
- **Yard genius.** Neighbors may need your child to water or mow lawns, or to plant flowers, prune bushes, or weed gardens.
- **Parent’s helper.** Suggest that your middle grader look for families who want someone to play with their children while they clean, work from home, or run errands. Tip: To advertise, she can hang flyers on community bulletin boards or ask family, friends, and neighbors to spread the word.

Learning that fits in

How does your tween plan to spend his summer days? Whether he is going to the movies, riding his bike, or picking out camping gear, he can keep his mind active and continue learning. Here’s how.

Explore animation
Encourage your child to watch an animated movie and then read books or websites to learn about the process behind it. He could even try his hand at animation on a site like flaxtime.com. Together, watch an animated film that you enjoyed as a child—he may be surprised by how much animation has changed since you were his age.

Go the distance
How far can your middle grader bike, swim, rollerblade, run, or walk this summer? Suggest that he record his distance each time and track his progress on a U.S. map. At the rate he’s going, how far will he “travel” by summer’s end? Example: If he bikes 12 miles a week for

12 weeks, he would draw a line to a spot that’s 44 miles away. Where could he go if he added two miles a week?

Analyze product reviews
If your child is in the market for something new (tent, basketball, headphones), have him read reviews to identify comments that are most helpful. For instance, buyers might include pros and cons of the product. Or they may give information about themselves to help put their opinions in context. (“I am an experienced camper who has tried many tents.”) Your tween can use the information to decide which product he prefers.

February 22th-23th, 2019
at Kharisma Bangsa School
On Saturday, 27th of April 2019, Kharisma Bangsa School of Global Education held its Graduation Ceremony in Balai Kartini. This program was attended by more than 700 people, including graduated students and their parents, teachers and staff of Kharisma Bangsa, some students of Kharisma Bangsa, and other guests. There were 167 students from Junior and Senior High of Kharisma Bangsa who graduated this year. Malvenphore, the name of Senior High Batch and Enzovoruz, for Junior High Batch. With theme “The Spectacle of Eternal Star”, this year graduation ceremony went well. The program started with Choir from Kharisma Bangsa students, speeches from Representative of Kharisma Bangsa and parents, performance from Saman and Folklore club of Kharisma Bangsa, and the main program Conferment of Graduates, student speech and prayers. The program closed with photo session with graduated students and their teachers. This solemn ceremony is a benchmark for our students. They had worked hard for the past 3 years to reach to this point. Along the journeys they have met various challenges and obstacles. In the future, they will be facing more difficult challenges and we hope they will strive for excellence in anything they pursue.

Dear parents,

We would like to inform you that we will soon change our school payment method, using Virtual Account Mandiri (VAM) Bank. Please be advised regarding these changes. We ask you to read this letter carefully to help ensure your convenience regarding this new payment system procedure. The new payment system will be applied for 2019-2020 Academic year. Each student will have their VAM account number and we will distribute this to their parents soon. Thank you for your time.

Kharisma Bangsa Management
What Our Alumni Says?

Kharisma Bangsa provides the perfect environment for developing a broad range of skills. This is why I chose Kharisma Bangsa.

Alfian Edgar Tjandra
Kharisma Bangsa Student
Accepted to Harvard University (2019)

I chose Kharisma Bangsa because Kharisma Bangsa not only unlocks and develops its students’ potentials, but also prepares them to become contributing members of the society.

Rizky Amalia Wulandari
Australian National University 2018
(Bachelor of Commerce (Honours))

Kharisma Bangsa caters students’ academics and helps them grow as a person.

Fadhila Mahardika Putri Setiawan
Kharisma Bangsa Student
invited to join ITB 2019
(Institut Teknologi Bandung)

This school gives us very enjoyable circumstances to learn anything we want.

Azzimar Firdaus
Kharisma Bangsa Student
invited to join ITB 2019
(Institut Teknologi Bandung)

Kharisma Bangsa has the integrity of the students in pursuing academic and non-academic fields. And the teachers that I met there were very well qualified, this is why I chose Kharisma Bangsa.

Diva Alifta Chandra
Accepted to Nagoya University, Japan 2019.
